MEDICAL.

DR. C. W. MOORE'S
Medical and Surgical Institute.
Commercial Street, a few doors below Kearney Str.,
Attending and Resident Physician,
C. W. MOORE, M. D.,
Late Surgeon, U. S. A., Quarantine Physician New Orleans and Boston, Lecturer on Morbid Anatomy and Diseases of Women and Children, Member of the Massachusetts Medical Society, etc., etc.

DR. MOORE WOULD RESPECTFULLY INform the people of California that he has established an Institute for the

CURE OF DISEASES
WHETHER CHRONIC OR ACUTE
AT 641 COMMERCIAL STREET,
A few doors below Kearney, where he may be consulted at all hours.

DISEASES OF THE UTERINE OR OVARIAN FUNCTIONS,
Characterized by irregular, suppressed, or painful menstruation, pain in the sides and back, sensation of weight in the pelvis, weakness, nervous headache, leucorrhœa or whites, are treated on scientific principles, and a prompt and permanent cure effected.

NERVOUS AFFECTIONS,
Such as neuralgia, paralysis, giddiness, dimness of vision, etc., will receive special attention.

DISEASES OF THE SEXUAL ORGANS,
Male or female, are treated with all the skill and appliances which modern science has made available.—Nauseous drugs and nostrums, which are so often administered for weeks without benefit, are entirely discarded, and a few days only are required to accomplish a perfect cure.

Secondary and hereditary affections, scrofula in all its manifold forms, dyspepsia, emaciation and debility, treated with certain and unfailing remedies—speedily expelling all corrupt humors, and imparting a healthy tone to the system by purifying the blood, regulating the secretions, and reinvigorating the vital powers.

Twenty years practice in different parts of the world has given the Doctor advantages possessed by few, and his remarkable success warrants a promise of effectual cure.

Medicines, with full directions, will be sent to any part of the State on receipt of letter describing symptoms.

An infirmary is connected with the establishment, where patients who desire may receive board and constant attention during their sickness, thus avoiding the inconvenience of a hotel. Kind and attentive nurses will be employed, and no means will be left untried to give full satisfaction. Consultation free.

TO THE LADIES.—Females in trouble, or afflicted with disease, are respectfully invited to call on Dr. MOORE, and consult him about their troubles. His uniform success in his treatment of Female Suppression and kindred diseases is a sufficient guarantee of his scientific attainments. Let no false delicacy prevent you, but call at once, and save yourself from future suffering and misery. Consultations are confidential, and his offices are arranged for the strictest privacy. Address, C. W. MOORE, M. D.

THE HUMAN HAIR
HAS LONG BEEN THE STUDY OF THE most scientific men of the age, from the fact that close study generally causes the hair to fall off prematurely; and, in consequence, they have given the subject a portion of their valuable time, trying to invent some method to regain their lost looks; but all their labor was in vain, until

PROFESSOR CROCKETT
after many years of hard study devoted to this one subject, has produced an article that

WILL MAKE THE HAIR GROW,
and which, by its use as a Hair Dressing, will effectually and always prevent its loss—even to extreme old age. Happily, the

AMYGDALINE
while possessing these virtues, is most delightful and agreeable without regard to their virtue. The hair, when diseased, becomes dry, and commences to turn grey, which is caused by the non-secretion by the capillary glands of a peculiar oil. It has therefore been thought and believed that if the glands were stimulated into action, they would still give a sufficient supply of nourishment to the hair; but alas! they forget one very important law of nature, viz: that ALL STIMULANTS HAVE THEIR REACTION; and the more the glands were stimulated—the sooner the final loss of the much prized locks. The principle of the preparation invented by Professor Crockett is entirely the opposite—instead of stimulating the capillary glands, he feeds them with the substance they require, and, in turn, the hair is fed by them—on the same principle as giving water to a flower. All we will say to those who are timid about trying new preparations is, that we strictly guarantee the AMYGDALINE to be entirely free from all stimulants, and is as harmless as filtered water, and can be used on the smallest infant. As a

Hair Dressing
it is unequalled by any the world has yet produced. It keeps the head entirely free of dandruff, eruption, pimples—imparting to the hair a beautiful glossy softness not obtained by an known compound. It will also be found both pleasant and useful as a Cosmetiques, rpassing cold cream and face lotions in its effects; for chaps, sore breast and nipples we know of no remedy that is equal to it.

THE PERFUME
used is such that the AMYGDALINE will always retain, it will not become rancid by age; in fact, it is perfect in every particular. Professor Crockett's Amygdaline can be had of all druggists and dealers everywhere. Price 50 cents.

Ask for **Crockett's Amygdaline**, and take no other. se25-6m

The California Fly-Killing Liquid.
FLY PAPER KILLS ITS THOUSANDS. THE Liquid Fly Killer its tens of thousands. This preparation for killing flies gives the greatest satisfaction of anything ever yet used. It is now improved to the highest killing point. It is of such a nature and so speedy of effects, that the flies will not spot the walls and windows, which makes the use of other preparations so objectionable.

THE NEW GOSPEL OF PEACE.

ACCORDING TO BENJAMIN.

CHAPTER X.

1. Now it came to pass that for a time before the Kopur-hedds set up Seemer for governor of the province of Gotham, the war in the land of Unculpsalm had languished; and it seemed as if the Tshivulree might prevail against the Iangkies, and the land of Unculpsalm might be divided, and its government brought to naught.

2. So that many which were not Kopur-hedds, but which wavered in their purpose, joined themselves unto the sect of the Ooeecnees; for so were they called which could not stand up like men to the work which was before them.

3. And Seemer saw this. Wherefore he said, Behold Abraham and his counsellors are slothful, and the land will be ruined because of their slothfulness. Why do they not send officers throughout the land, and let lots be cast for men to fill up the armies of Unculpsalm, that may be done speedily, and that with a high hand and a mighty arm.

4. And the Kopur-hedds said, Yea, verily, let the lot be cast, and let the men be taken. Behold Abraham and his counsellors are feeble. Let the war be waged with a high hand and a mighty arm.

5. But in all this they were crafty, (for they were wise in their generation), and sought only to get the government into the hands of their faction. And they prospered for the time. For all of their own faction, and all of the sect of Ooeecnees gave their voices for Seemer, so that he was made governor.

6. Now the Knsuvvutivs forgot nothin, neither learned they anything; wherefore it was that they remained in hot water lest they might be scalded.

7. And Abraham remembered how it had been with rulers, which were Knsuvvutivs, in the olden time, how they had either brought their nation to ruin or themselves; and how two rulers, kings, even the king of the land of Jonbool, even before it became the land of Jonbool, and while the men of Unculpsalm, even the Iangkies, dwelt therein, and the king of the land of the Pahlivoos, which were good men, but Knsuvvtivs, and forgot nothing, neither learned anything, but got themselves into hot water and remained therein lest they should be scalded, were solemnly beheaded for their Knsuvvutism.

8. And Abraham considered the matter in his heart, and he said within himself, The wise man remembereth the teachings of the past, but he turneth not away from the cry of the present; neither stoppeth he his ears against the chiding of his adversary, for it may profit him. So, although Abraham was not numbered among the Knsuvvutivs, he hearkened unto their counsels.

9. Now there were others, chief men of the Dimmichrats, which did likewise. And these were Benbuttlah, who first discovered that the everlasting Niggah was contraband; (Now, contraband, in the language of all the gentiles, is everything which doeth harm unto him that maketh war, and helpeth his enemy to war upon him;) and Daniel, surnamed Scripturdic, because he searched the scripture, not to find something to his advantage, but that he might expound them unto the people; and Jembray Dee, a great lawyer of Gotham, who would take no office, and who was the son of a Pahdee.—(Now there be no better men than the sons of Pahdees that are born and bred in the land of Unculpsalm.) Likewise were there many others of this sort among the Dimmichrats.

10. And Abraham said, Let the lot be cast who shall serve in the armies of Unculpsalm. And, whereas, by them of olden times, even by Moses, it was said that only he had taken a wife should not go to war, let now every man who is the only son of a widow, and who is the only support of his wife and little ones, and every man whose going shall be a hardship and a calamity, save that which men ought to bear, not be taken.

11. And if any man's heart fail him, or if his business demand him, let him pay another that he may go in his place; let it be declared that whosoever, upon whom the lot falleth, and who will pay into the treasury three hundred pieces of silver, shall have another provided for him to go to the war in his place; for so shall the extortioners not grind the faces of them that be both poor and faint hearted.

12. Now when Phernandiwud heard that this was done, he rejoiced greatly. For he said, Abraham hath again ministered occasion unto us; and this occasion is even better than that when he gave Clement unto us as a martyr.

13. For Clement hath made little for us by his martyrdom.

14. And immediately Phernandiwud, and Benjamin his brother, and Jamas the Scribe, and Erastus his brother, and Primus the Scribe, and Assokald Edditah, being bidden thereunto by his owners, and all the Scribes and orators of the Kopur-hedds throughout the land of Unculpsalm, forgetting the counsel of Seemer, and that they did declare the same, did set themselves to stir up the people against the lot.

15. For they said, Thus shall we hinder Abraham and his counselors in their government, and thus shall we stop the war, so that no more grievous victories shall afflict the land, and the armies of Unculpsalm shall be driven from the field, and the gospel of peace shall prevail, and the land shall be divided, and the nation destroyed, so that we can build it up again, and its foundation shall be the everlasting Niggah, who endureth from generation to generation.

16. And openly they declared against the lot, because, as they said, it was contrary to the Great Covenant.

17. For, in the land of Unculpsalm, whatever a man was loth to do he would do according to the Great Covenant; so that men began to hope that it might be found contrary to the Great Covenant for the husband to walk up and down with a child that crieth in the night. (For such was the custom in that land.) Wherefore the children would have been suffered to cry until the judges had delivered judgment, but the women had whereof to say in that matter.

18. But the in secret the Kopur-hedds said unto the poor men, Behold, Abraham lieth in wait for the blood of the poor. For the rich man who can pay three hundred pieces of silver need not go to the war; but the poor man, who cannot pay, must go if the lot fall upon him.—Saying not that every man must serve God and his country according to his ability.

19. And to the rich they said, The three hundred pieces of silver will not be paid to the men who go into the army in your places, but even unto the other army, the noble army of Counteractors which do continually praise Abraham.

20. Thus the Kopur-hedds made confusion, and stirred up the people to murmur throughout the land; but chiefly in the city of Gotham, which was governed by the Pahdees, the followers of Phernandiwud.

21. Now the Pahdees are ready to fight, and they love fighting for fighting's sake: and so do not the Iangkies, which do not fight, save against oppression and for righteousness sake.

22. And the Pahdees do like best that fight which is called schyndee. (Now schyndee is when each man breaketh the head of his neighbor and asketh no questions.) And without schyndees the Pahdee pineth away and life is a burden unto him.

23. But before the beginning of the war the Pahdees of Gotham had been almost altogether deprived of schyndees by reason of the straitness of Ken Edee and his watchmen.

24. And when the war began, besides that many of them stood idle and had neither work nor wages, they all thought that the war would be like unto a great schyndee, even great enough to make unto them the loss of all the schyndees whereof they had been deprived by the watchmen of Gotham. So they went many of them to the war; but after a season they came home, and having filled with fighting for a time, and finding both work and wages, they returned not again, but gave themselves to governing Gotham,

25. Now when the decree went forth that the lot should be cast, Phernandiwud and the chief of his disciples who were apostles of the new gospel of peace went among the Pahdees and said unto them,

26. What is this that Abraham and his counselors would do unto you? They are tyrants and would take away your rights and your privileges. For is it not the right and the privilege of the Pahdees to come from a land of famine and oppression unto the land of Unculpsalm, which is a land of plenty and of freedom, and to be paid for their labor four-fold what they received aforetime, and while the bog is upon their feet and the hair is upon their teeth to become rulers in that land, and to take unto themselves all the benefits for which the Iangkies have done battle and sat in council, and to have fat offices, and above all, to rule in Gotham?

27. Wherefore, then, goeth forth this decree from Abraham and his counselors, that the lot shall be cast in Gotham, where there be many Pahdees, even a great number like unto the locusts for multitude, save that Abraham thirsteth for the blood of the Pahdees, and would take them away from ruling Gotham, and deliver the city into the hands of the Iangkies, which have no right therein, and unto men who would take away the everlasting Niggah and let him go a free man over the land, and get both work and wages?

28. And when the Pahdees heard of giving wages unto the Niggah they all howled with an exceeding long and piercing howl. For the Pahdees do hate the Niggahs; and for them to hear that the Niggah is to have wages like unto them is an exceeding sore affliction. So they howled with a howling like unto that of a ouaic.

29. Now in the tongue of the Pahdees a ouaic is a gathering together by night over the body of a dead Pahdee. And forasmuch as it is one of their solemn ceremonies, they do pour out drink offerings, and also make saerifices. For after they have well poured out drink offerings they have a schyndee and slay one of their number as a sacrifice for him that is dead. And then straightway there is another ouaic over him that is slain; and so on forever, so that each ouaic produceth another; and thus the howling of the ouaic and the pouring out of drink offerings and the schyndee never cease throughout the country of the Pahdees.

30. And Phernandiwud and the scribes and orators of the Kopur-hedds did continually day by day thus stir up the Pahdees and all them of the baser sort among the men of Gotham.

THE FATE OF THE CIRCASSIANS.

The Siecle has an article complaining that the world is regarding at present with inexpressible indifference and weakness one of the most melancholy events of modern times. The whole of a valiant nation, which seemed placed by Providence for the defense of the principal military position betweeu Europe and Asia, is forced, after a century of resistance, to emigrate "in the face of violence, cunning, and all the unutterable acts suggested by the most audacious policy." The writer alludes to the departure of the Circassians from their mountain territory and to the conduct of Russia in forcing them to depart:

"Upwards of 600,000 of those men," he says, "renewing the spectacle afforded by the extensive emigrations of former ages, have already quitted the Caucasus, Turkey, instead of strongly establishing them in one of her Asiatic provinces on the borders of the Russian possessions in Asia, has doubtless been afraid of a fresh war with the great Northern Power, and has scattered those emigrants over the whole Ottoman Empire, and principally in Roumelia and Bulgaria, where she hopes thereby to strengthen the Mussulman element. She apprehends danger on the Danube, whilst it is really in Asia. Russia, being the undisputed mistress of the Caucasus, will not henceforh stand in need of the road she formeriy followed in order to inundate Turkey with her troops. From her Caucasus possessions she may be at Kars in a few hours, and whilst the Turks are raising the fortifications of the Bosphorus and repairing the castles of the Dardanelles, in the fear of the fleets from the Black Sea, they neglect the defenses of their Asiatic citadel, and of all that part of Asia which is now unprotected. The last war ought to have warned them that their weak point lay on that side, for their armies were not able to arrive in time to preserve Kars, which fell, on the contrary the French were already off Constantinople in a protecting attitude before the Russian fleets had been able to quit Sebastopol.

The emigration of the Circassian population, and the taking complete possession of Caucasus by Russia, therefore changes once more the conditions of the balance of power in Europe. Already, by their cruel triumph in Poland, the Russians had resumed a certain ascendency over the North; now it is on the East that they are about to recommence their domination; and that they do not moreover conceal that the phase of resignation into which the capture of Sebastopol had them drawn is now at an end. The sending of the celebrated General Ignatieff as ambassador to Constantsnople is most significative. The Moscovite Cabinet, appearing to disdain that city, formerly the scene of its intrigues, has, for several years only kept a charge d'affaires there. General Ignatieff with his well known skill, is again about to sap the ground of influence, and the closest understanding between the ambassadors of the Western Powers will not be too much to defend a position which they had so clearly achieved. Thus is verified what we have for a long time constantly predicated—the two bulwarks of Poland and the Caucasus being no longer in existence there will be a necessity, in order to save the world from Russian conquest, to recommence fresh sacrifices."

The article then draws a lamentable picture of the dreadful sufferings to which the Circassian emigrants have been subjected in their exodus, and recommends that in place of dissevinating the tribes over various parts of Turkey, they should be fixed on the Black Sea between Batoun and Trebizond, so as still to form a barrier against Russia. But Turkey would not venture to adopt that step unless the Western Powers engaged to support her in case Russia protested by sending a body of troops. The unfortunate Circassians could there constitute themselves a new country, almost in view of the old one, and in return for the protection afforded them would supply to Turkey a living frontier of strong arms and devoted hearts.

OATH OF LOYALTY IN NEVADA.

The following is the form of oath which must be taken by all attorneys and counsellors at law practicing or preparing to practice in the State of Nevada:

I, [with name of affiant] do solemnly swear (or affirm as the case may be) that I have never borne arms against the legally constituted authorities of the United States, or aided, nor abetted, nor sympathized with insurgents in the so-called Southern Confederacy, rebelling against the Government of the United States, since the 19th day of March, 1861; and in particular, I do solemnly swear that I did not applaud the action of Jefferson Davis, Judah P. Benjamin and their official associates when they left their seats in the United States Senate and announced their renunciation of and allegiance to the Government of the United States, and their intention to stimulate, help or inaugurate the institution of a government within the limits of the United States, hostile to or entirely separate from the Government of the United States, that I did not applaud the firing upon Fort Sumter, in the harbor of Charleston, S. C., 1861, by the rebellious forces of the so-called Southern Confederacy, that I never expressed a hope that the military forces of the so-called Southern Confederacy might be successful in battle, at any time, against the military forces of the United States; that I never rejoiced over a reported victory of any army or military force of the so-called Southern Confederacy as against any army or military force of the Government of the United States; that I never expressed a hope that foreign powers might interfere in the civil warfare in the United States, which was commenced in 1861, so as directly or indirectly to lend aid or countenance to the so-called Southern Confederacy; that I never communicated with any soldier or officer in the army of the so-called Southern Confederacy by letter or otherwise, thereby imparting information contraband of war; that I never knowingly harbored or concealed any agent or emissary of the so-called Southern Confederacy; that I never sought the illegal escape from military custody of any person or persons arrested under charge of treasonable action or use of disloyal language; that I never contributed in any manner to the building or furnishing of vessels of war of any description to me known or suspected to be intended to sail under a letter-of-marque from Jeff. Davis, President of the so-called Southern Confederacy, and to prey upon merchant vessels owned or sailed by citizens of the United States; that I never belonged to or encouraged the formation or propagation of any association or order in its character hostile to the Government of the United States; and I do solemnly swear (or affirm as the case may be,) that I will faithfully support and protect and defend the Constitution and Government of the United States against all enemies, whether domestic or foreign; that I will bear true faith and allegiance and loyalty to the Constitution and Government of the United States; that I will, to the extent of ms ability, use my influence as a citizen to uphold the United States Government and foster a love and reverence for the Flag of ths Union, any laws or ordinance of any State Convention or Legislature, or any rule or obligation of any society or association, or any decree or order from any source whatever, to the contrary notwithstanding; and that I do this with a full determination, pledge and purpose, without any mental evasion or equivocation whatever; and further, that I also take and subscribe this oath (or affirmation) as a citizen, without any mental reservation on account of my official position as Attorney or Counsellor at Law; and I do further swear (or affirm as the case may be) that I will support the Constitution of the State of Nevada.

STUFFING ON PIES.—The Austin Reveille of January 23rd, relates the following:

A man entered Patrone's saloon last night and called for a pie. The affable proprietor furnished it, and was gratified to hear his customer pronounce it delicious—bully! Said customer then confidentially informed mine host that he thought he could put himself outside of about two dozen such pies. Here was a chance for business. Patrone offered a bet that he could not eat fifteen more. The bet was made, and the glutton proceeded to astonish his bowels by stowing away the pastry. The crowd became interested and bets were made freely. The joke was a fine one for the gormand at the start, but began to be a serious matter as he proceeded. After finishing the sixth pie his friends persuaded him that he would hold more if he stood up. He did so, and by unbuttoning his waistbands and throwing off his suspenders, managed to swallow three more. Here he stuck, looking like an inflated toad, and feeling like a gorged anaconda and a fool. He was conveyed away by his friends and admirers to be rubbed down. We understand that his physician this morning administered to him a dose of cut-worms and tumble bugs, which we trust will produce the desired effect.

THE Memphis *News* tells a story of a gentleman of that city who had led a gay life during the protracted absence of his spouse. The evening of her return he requested to be awakened early next morning, which she complied with when the hour arrived by shaking him soundly, exclaiming: "John, get up, it is daylight." "Is it?" replied her husband with a frightened air: "Good, gracious! people will see me going away from here."

DUTCH FLAT ENQUIRER.

SATURDAY MORNING, FEB. 11, 1865.

Now, by St. Paul, the work goes bravely on,
The Stars and Stripes are up for Liberty,
Flag of the Nation--Talisman of the Free,
Curs'd be the hand that dares to tear thee down.

☞ THE road across the mountains is said to be in splendid condition now; the stages are making excellent time both ways. All that was needed on this road was that it be packed, and when the travel and weather shall continue to allow this we will have the best road across the mountains. We are sorry that our citizens do not possess that go-aheadativeness about them to bring the road through town, for in that event all brauches of trade and business would receive an impetus that nothing could hereafter retard. This tardiness on the part of our people will probably be the means, however' of the people of Gold Run securing to themselves all the advantages of the immense travel that will be on the road the coming year. Already the proprietor of the Gold Run Hotel has commenced the erection of a mammoth hotel in order to be able to meet the increased demands on his establishment which will be certain to be required as soon as the traveling becomes good for teams and private conveyances. Other persons are contemplating enlarging their business houses at that place, and Mr. Mo re, the agent of Messrs. Hall & Allen, of Auburn, intends, as soon as his house is finished there to open a banking house. It will not be long before the miners in that section, having all the accommodations they desire at their doors will cease their visits to a place where the people from lack of energy and enterprise have allowed the golden harvest to slip through their fingers. Gold Run is, naturally, more favorably located than this place to secure the custom of travelers, and with the enterprise of its citizens as manifested for the last year will probably present a more favorable investment for capital. It is yet however, in the hands of this people to *make* Dutch Flat the depof for trade should they elect so to do, by bestirring themselves in public works so much needed. It has the advantage of population and capital over its ambitious neighbor, and should our people, even at this late day decide to improve the opportnnity now offered they can place the town in such a condition as to defy competition—otherwise they had better buy a lot at Gold Run.

DISGRACEFUL SIGHT.—Every one who witnessed the mortifying spectacle on Wednesday afternoon, when a boy, child, about six or eight years of age was lead staggering down through one of our most public thoroughfares in a beastly state of intoxication. Comment upon this harrowing sight might be appropriate, or serve to induce the mother of this child to exercise a stricter supervision over him, but the bare sight of this infant being carried home filled with the poisonous drugs which had deprived it of its senses should be enough to act as a corrective to both parent and child for all time to come. The English language is too poor to express our loathing and contempt for the wretch who furnished this child with the means of debauching itself; disgust grows dizzy "in contemplating this fiend in human shape." He should be made an example of, so that all honest men would shun his dead-fall as well as the contaminating and loathsome presence of this *thing!* it would be a vile slander to call him a man.

☞ ON Sunday afternoon last the appalling cry of fire was heard in our streets, caused by the lining of the room catching on fire from the stove in the hurdy-gurdy saloon next to Arnstein's. The fire was soon extinguished and but little damage done. Persons should be very careful of the way their stove-pipes are put up, as half the fires which occur in the interior are either from carelessness in this way or from Chinese houses.

FOR NEVADA.—The following named persons passed through this place on Thursday afternoon last for Virginia city in one of the California Stage Company's coaches: W. Hickie, F. F. Martin, P. H. Russel, Theodore Bender and wife, A. Charles, Jose Andrido, L. Barsillo, F. G. Folsy, Geo. Robinson, Mrs. Cameron, F. Reese and B. Hughes, 13. The following persons passed here from Virginia on the night of the 9th: P. Kent, J. Bope, A. C. Nunster, Mrs. Crittenden, Creamer and wife, W. Lidcod, A. De Land, A. McCurdy, Ketchum, Andrews, Potter, Packard, Wells, L. B. Ayres, Mrs. May, John Chinaman. It will be seen that the coaches are now running full notwithstanding the slanders of the Placerville *News*.

FRIDAY, 10th, for Virginia city by Californ.ia Stage line: John Wildners, Miss J. Conner, Fred. Gramps, D. Rolls, H. Palmer, W. A. Kendall, H. Scott and lady, J. J. Collins.

DIDN'T COME.—General D. E. Sickles, who was expected to arrive on the steamer Constitution, did not come. He was detained in Panama on account of the transaction of State business with the authorities of that place. There was an immense crowd on the wharf at the landing of the Constitution, numbering thousands, who were anxious to do honor to this brave veteran of the Union army. We learn from the Flag of the 6th instant that it was not the intention of the Government that General Sickles, should visit California; that his business was of a diplomatic nature connected with the affairs of Mexico and the Central American Republics, which for certain reasons were not made public at the time of his departure from New York.

SANITARY BALL.—The Ladies of You Bet will give a ball at that place on the 22nd day of February, in commemoration of Washington's birthday, the proceeds to be devoted to our sick and wounded soldiers. A general invitation is extended to all.

ABOUT THE MINES.—There is, probably, no mining district in the State about which there is so little known—in detail—and in which there is as much gold taken out as at this place and its immediate surroundings. There appears, however, to be a disposition prevalent with those owning the best claims to keep their operations in a profound secret; and we should never be aware of the fact that there was any quantity of gold taken out here were it not that we frequently notice huge blocks of the precious metal in the brokers' offices; two of which we saw this week, one weighing about eighteen pounds, and the other sixteen pounds, and each lump the yield of a different claim; how many more lumps these men had we are of course unable to say, but when we tell our readers that there are some hundred paying claims in this neighborhood, the most of which are present being worked, they can form something of an idea of the amount of gold taken out. Why our miners are thus retieent, we cannot say; we do not inquire of them through a spirit of idle curiosity, or with a disposition to become possessed of knowledge to be used to their detriment, but for the purpose of showing, from actual facts that we have as good or better yielding mines than any district in the State, thereby making it an inducement for capitalists to bring their money here for investment. In this way our town would soon assume a positi on of importance second to none in the interior; our miners would then be able to procure all their necessary machinery and implements at a cost of twenty-five or fifty per cent. less than they now pay, from the fact of the establishment of manufactories in our midst; they, with the balance of the consumers of the necessaries of life, could be supplied at much cheaper rates from the fact of a large increase in trade of every description, with facilities for transportion greatly augmented this condition would naturally follow. To bring about this desirable object, to erect houses, establish shops, factories and to increase our population, we must first convince those who have the means that there is, beyond a doubt, a demand, and further, that the resources of the place, when developed would sanction the investment of the necessary outlay that we have the mines whereby to obtain the means in order to support the establishments by which we are to be benefitted. This, we think, can be best accomplished by publishing to the world what we are now able to do with our present restricted condition and means. An individual, no matter how gifted, might talk till Gabriel blowed his horn without accomplishing as much as a reliable newspaper could do in a month; and considering that those engaged in mining operations have an organ in which they can make such statements as to their pursuits as they deem proper, they are greatly responsible for the prosperity or backwardness of the business of the place in which they are located; and are responsible to their fellow-citizens, not only for their prosperity, but the tone of public opinion in regard to social, polical and moral standing. We again tender them the use of the columns of the ENQUIRER, and if they have no time to write out at length the mode or system they pursue, give us the items in a crude shape and we will endeavor to present them in a proper style, free of charge. All we ask is reliable information.

PLEASANT TIME.—On Wednesday last quite a number of ladies and gentlemen of this place got aboard of the stage and started for Crystal Lake, at which place there was to be a ball, given under the auspices of Mr. Polley. The party arrived at Zerr's Station, ten miles above here, in safety and high spirits, at which place they were transfered to a sleigh, and continued their journey well contented that they had essayed a trip to the country. The horses were fresh and spirited, and took the party over the snow at a 2:40 rate; the members of the party exerted themselves to the utmost to create enjoyment and mirth, and everything was

"Mery as a marriage bell."

When lo! the driver becoming interested in the conversation of the little divinity sitting beside him, the team took its own course and 'dumped' the party headforemost into a snow-bank, in which position the poor things—the ladies—remained for some considerable time, variously estimated from twenty seconds to fifteen minutes, before they were extricated from their perilous situation. We are credibly informed by an eye-witness that the gentlemen all turned around and covered their eyes with their hats, and saw no posts sticking out of the snow, and the ladies say they did not preempt that particular place, neither did they show any flags of true as has been maliciously insinuated. They were righted, however, after a time, and again took their seats and shortly aftewards arrived in safety at their destination where they met with hospitable treatment and enjoyed themselves to the fullest extent to a late hour, and left with feelings of satisfaction for their homes next day.—The party speak in flatternig terms of the visitors from Donner Lake and other points on the road, and do not appear to regret the little episode of the snow-bank, or being turned upside down. Two of the party waltzed into our office on their return, chausseed by the press, made a piroutte around the imposing-stone, balanced to the stove, forwarded out the door and backed into mud in the street, after which they promonaded up town as happy as two clams in high water.

THE RESCUE.—This paper, printed in Sacramento, and devoted to the temperance cause, of which it is an able advocate, has just entered upon its second volume. It has been greatly enlarged and improved and gives evidence of much usefulness.

☞ OUR Sacramento correspondent failed to connect, this week. We hope his next letter will be more than usually interesting.

NOT SO.—The Placerville *News* in its insane attempt to bolster up its road and disparage ours says that on the trial trip between the Pioneer Stage Company and the California Stage Company, that the latter "run a stage out of Newcastle, and then transferred a few papers to a pony rider who carried them to within a few miles of Virginia, where a stage was again in readiness to receive and hurry them through." All those along this route *can* and will testify to the falseness of this charge; the *stage* passed this place at the time about four o'clock, and there was *no trasfer made to a pony express in any shape whatever*. A road that needs such barefaced assertions in order to obtain a little travel must indeed be a miserable excuse. If the *News* is determined to deceive its readers and the public as to the comparative merits of the two roads, we shall take the liberty of setting the matter right. We understand that the owners of the Dutch Flat and Donner Lake road are willing to wager ten thousand dollars that the California Stage Co.'s coaches can again beat the Pioneer line from Sacramento. Betting ordinarily does not prove any fact but it shows that persons have confidence in the correctness of their assertions, and in this matter we will wager with the *News* an equal amount of material confained in that office tthat this route is victorious, should the trial be made. The trip can be made with one or ten passengers on each coach, Crocker and McLane being on opposite lines; in this way there can be no trickery and the superiority of this road can be thoroughly tested.

☞ WE received a letter during the present week from Auburn, signed "Union," in which the writer says that the "clique" of that place was not composed of the office-holders of the county. We never said it was; but Union will certainly not deny the *existence* of a clique at that place, composed of persons who are desirous of getting into office, and who, in order to accomplish their purposes, will attempt to pack the pricincts at the primary elections? Send us your proper name, Mr. Union, and we will be able to judge whether you are "in the inner circle" or not. We require this from all correspondents, in order protect ourself from being imposed upon by irresponsible or malicious persons.

A CASH BASIS.—Mr. L. Arnstein desires us to state to "all whom it may concern," that after this date he intends to sell groceries, provisions, herdware, fancy goods, liquors, tobacco, and general merchandise at San Francisco prices and cost of freight, for cash alone. This arrangement he thinks will be a saving, not only himself, but to those who patronize him, enabling him to sell his goods cheap and get paid for what he sells. All are invited to call and examine his stock.

FATAL AVALANCHE OF SNOW.—On the afternoon of Sunday last a party of fourteen men with nine horses went out to break the trail from Sierra Valley to the Henness Pass road through Webber Ravine. At about four o'clock when pretty well toward the summit, an avalanche of snow, ranging about ten rods in width, came down suddenly upon the train, covering eleven of the men and five animals. Nine of the party were soon rescued, but pretty well salted with snow and white as badgers, to say nothing of the little fright which we presume they felt at being so suddenly buried alive. Two others, however, remained in the drift, whose moans could be distinctly though faintly heard; but curiously enough, their particular location could not be determined thereby, the sounds at different times, and to different ones, seeming in opposite directions, and the labor of rescuing them being thus diffused over a large area of hard and corrugated snow. Harvey Davis was found after two hours' time in an exhausted condition, but soon recovered. The other man, John Bryant, who was married on New Year's was not recovered until two o'clock on Monday morning. He was found dead, but unscarred, against a small tree, where he seems to have lodged, at a depth of only three feet. So hard pressed was the snow, says our informant, that buried at a depth of only one foot, no man would be able to move his limbs. One of the horses was found dead at a depth of two feet. The body of Mr. Bryant was still warm about the chest when found.

Immediately after the casuality a man was dispatched to the Valley for asistance, and a large body of men turned out with shovels refreshments, etc., several of whom, owing to the severe cold, to which they were unaccustomed, returned with frozen feet and hands.

The last men found were only about fifty or sixty feet from where the avalanche found them, others being carried much farther, and some of the horses 150 feet below the trail. Dr. Webber and some others of the party were so beaten out with continued efforts to rescue their comrades as to require assistance to leave the scene of disaster. One man, whose heels were sticking out of the snow after the avalanche had passed, and who finally struggled out, shook the snow from a prodigious pair of whiskers as he informed the rest that he was buried at least three feet and could only stir one of his legs at first, the only lever he had with which to work himself loose.—*Downieville Messenger, Feb. 4th,*

THE NEW MINES IN SANTA CLARA COUNTY.—The San Jose Patriot of January 18th, says:

During the preceding week the mining excitement has been maintained. Persons visit the Uvas district daily, and the whole of the country from the Rosario mine to beyond the Mammoth ledge is covered with locations. The Mammoth is unquestionably the largest ledge yet discovered; how much of it will yield paying rock is yet undetermined. There are in it some streaks of silver—that is patent on the surface. The tests made on rock from this ledge are encouraging, and an assay made by Casey, of this city, a practical assayer, furnished evidence of the presence of silver. A meeting of the share owners of this ledge is called, and it is to be hoped that immediate steps will be taken to test its value.

Other discoveries and locations have been made of similar ledges, but presenting the appearance of greater richness than the Mammoth. We saw a few days ago, in the possession of Cotterel, a piece of rock taken from the Little Bully, which was unquestionably rich, both in gold and silver. The metal was spangled all over the rock.

We learn that a large amount of very rich copper rock is being taken out of the Margarita which will be shipped to San Francisco as soon as the roads will admit of transportation.

LILLIE'S LOCK OPENED IN ONE MINUTE!

NEW YORK, September 2, 1864.

F. TILLMAN, Esq., 318 Battery street,
Bet. Commercial and Clay, San Francisco.

DEAR SIR: WE NOTICE AN ADVERTISEment in your daily papers respecting the "security" of the "Lillie" lock. We are aware that you well understand this lock, and, of course, will not allow yourself to be annoyed by such representations. We have just sent for one of our men at the factory; and he, in our presence, opened one of Lillie's best safe locks, after it had been locked and the combination turned on,

By one Blow of the Hammer

Against the knob on the outside, and thereby breaking the cast iron bolt on the inside.

The whole time occupied in opening the lock was about ONE MINUTE. We send you this lock that your friends may not be deceived by false representations, etc. Respectfully, etc.,

A. E. TILTON,
WM. McFARLAND.

Any parties desirous of seeing the above mentioned lock, its insecurity and easy mode of opening the same, can call at
318 Battery street, San Francisco.

GLOUCESTER, March 26, 1864.

Messrs. TILTON & McFARLAND,
Safe Manufacturers, Boston, Mass.

Gentlemen: From representations made by Mr. Lillie, I was induced to purchase one of his
So-called "Fire Proof Safes,"
On the 18th of February last, a fire occurred in our block which destroyed a number of buildings, and our own with the rest. We trusted our books, papers and all in the safe. After the fire the so-called "safe" was taken from the ruins, and on opening it we found that
Everything was Destroyed.

We send you the safe, with what is left of the papers, and you will see that not one of them is legible or strong enough to sustain its own weight. Having the curiosity to know how our neighbors fared in this fire, we noticed McKenzie & Hardy just opening their safe (TILTON & McFARLAND'S make), and its contents were found to be
In Perfect Condition.

☞ This led us to further investigation, and we found to our astonishment that from the large amount of combustible material in Messrs. McK. & H.'s cellar—such as lard, pork, etc.—their safe was subjected to a much greater heat than that of our own, we being in the clothing business and had but little in the cellar. There was another of Lillie's safes here subjected to the same fire, faring, however, no better than our own.

Very respectfully,
Your obedient servants,
[Signed:] GEO. L. CHESBRO & CO.

ADVANTAGES OF WOMAN.

Sewing to do? Yes, piles of it; but I'm not going to sit sewing like a dummy, all alone, while everything is so quiet. And it's myself that's had a gold pen sent me, all the way from America; and it is high time too that I find out how well it will write.

So here's to the pen, and the gi—— hold! such scratching. I must change my subject; so here's to the fair ones. For, with a scratching pen, what else could I write about—although I heard a very sensible woman remark, the other morning that she wished to the Lord she was a man; probably she never considered what an advantage it was to be a woman, that she can say anything she chooses without being knocked down for it. Isn't it the dearest pleasure every true woman can obey and make happy the man she loves, provided he is reasonable?

Before they get married, can't they keep out of sight their failings, and do their best to cause their beaux to think them angels? And men bow down, like slaves to every wish and whim of their lady-loves, and seem to live but to make them happy. Upon my word, Mr. Editor, there is a great pair of masculine eyes looking over my shoulders, and the owner of those eyes says, if he ever lived that way while he was a beau, (he lives now a great deal more so,) I wonder if I'd better take that? I'll return to my subject, but don't hold me accountable for further mistakes. Perhaps it may not be thought an advantage by any girl, that she must wait to be wooed and won—she can say no when she means yes.

A woman can stay at home in time of war, and get married if her husband be killed. She can go into the street without being asked to "stand treat" at every saloon. She can take a snoose after dinner, while her husband goes to work. She can get divorced from her husband whenever she sees one she likes better. She can play sick in the morning, while her husband gets breakfast and sweeps the carpets. She can promenade the streets in the afternoon, make genteel calls, indulge in gossip, stay too late to prepare supper, and convince her husband that out-door exercise is essential to her health. She can paint her face if too pale, powder if too red. She can wear corsets if too thick, other fixings if too thin. She can get her husband in debt all over, until he warns the public not to trust her on his account. But all these advantages are balanced by the fact that she —— If you cannot guess, I'll tell you some other time.

LITTLE YORK, Nev. Co., Jan., 27th, 1865.

EDITOR ENQUIRER:—It appears from the articles published in the Grass Valley and Nevada papers during the past few months that the attention at least of some few of the capitalists of San Francisco have been to some extent turned to the mining in their own state, and particularly to the quartz mining of Nevada and Grass Valley. I am glad to see this interest attracting their attention; for I am well satisfied, after an experience of some thirteen years in mining in this section of the country, that their investments, if well directed and prudently managed, will yield them a larger per cent. with less outlay for first cost than can be realized from one out of a hundred of the Washo, Esmeralda, Reese River, Humboldt, Arizona, or Mexico speculations which have attracted their attention for the past few years. It is a well known fact that California has deposits of gold buried beneath her hills and locked up in her thousands of quartz leads which need only capital to open the vaults of crœcus and bring to light the hidden millions which have so long been held in store, the reward for the hand of industry and enterprise. These deposits of wealth have been carefully secreted by the god of nature. Some deposited beneath the cement-capped mountain ridges; some sown as it appears, broadcast among the grains of sand which compose our numerous gravel hill or hydraulic claims; other rich deposits made in a layer of cement which lies close upon and almost composing a part of the bed rock (the great foundation) and still another more secure deposit was made by the same generous donator, and I judge that he had an eye to business when he enveloped the unknown billions of uncoined double eagles in solid rock and scattered them through the length and breadth and depth of our state, and then said to man, whom He had made after His own image: "he who gets it first, to him shall it belong." Well he knew that the idler upon the streets, the slothful undeserving would get but barely enough to keep his soul and body together, and so for that portion of his children he scattered a few grains of the precious metal along the gulches and ravines and upon the river banks, occasionally leaving a piece uncovered to attract his attention so that he might become ambitious and search diligently for a greater reward. These visible and easily obtained particles of gold have answered a double purpose, while they have fed and clothed those of small means they have pointed out the road to unlimited wealth which enterprise and industry alone can travel while the toll upon the roads leading to the vaults must be paid from the coffers of the capitalists.

DR. HOSTETTER'S STOMACH BITTERS.—The operation of this palatable remedy upon the stomach, liver and excretory organs is singularly soothing and conservative. It regulates, recruits and purifies them. Dyspepsia in all its forms yields to its control and invigorating properties, and it is recommended to mothers, enfeebled by the cares and duties of maternity, as the safest and best tonic they can probably use. In all the crises of female life it will be found eminently useful, and elderly persons will derive much more benefit from it than from ordinary stimulants. Sold by all Druggists and dealers every where. HOSTETTER, SMITH & DEAN,

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number nor the manner of directing your letter. CONSTABLE'S SALE.—BY VIRTUE OF an Execution to me directed and delivered, on the 14th day of January, 1865, out of the Court of O. H. Young a Justice of the Peace in and for Township No. 7. Placer county and State of California, on a judgment rendered in said Court, on the 3th day of January, A. D. 1865, in favor of James F. Brown and against W. S. Conner, for the sum of Two Hundred and Twelve 60-100 Dollars (212 60) in gold or silver coin or the equivalent, with interest thereon at the rate of two per cent. per month from the 3d day of January, A. D. 1865, together with costs of suit, taxed at Forty-three 75-100 Dollars (43 75), I have on the 14th day of January, A. D. 1865, levied upon and will expose for sale at public auction to the highest bidder for cash in gold and silver coin or the equivalent, at the Engine House of the Rough and Ready Mining Company on Grizzly Flat, Township No. 7, Placer county and State of California,

On Monday, the 27th day of February, 1865,

At 10 o'clock, A. M., all the right, title, claim and interest which the said W. S. Conner had on the 15th day of December, A. D. 1864, or has since thereunto acquired, in and to the following named and described property, to wit: One undivided twelfth interest or share of what is known as the Rough and Ready Company's Mining Claims, situated on Grizzly Flat, Township No. 7, Placer county and State of California, together with one undivided twelfth interest or share in an Engine and fixtures belonging to the same. The said Engine is now located on the said Rough and Ready Mining Company's claims. Also, one twelfth of an interest or share in all the Company's Wood, Timbers, Tools, Cars, Sluices, fixtures and appurtenances thereunto belonging or in anywise appertaining. All of which named and described property I will sell as aforesaid, or so much thereof as may be necessary to satisfy the above judgment, together with the costs due, and to become due thereon

INVENTORS, MECHANICS, AGRICULTURISTS,

Are directed to the annual prospectus of the cheapest and best Mechanical Journal in the world.

The Illustrated Scientific American,

A New Volume of which commences Jan. 1, 1865.

THIS VALUABLE JOURNAL HAS BEEN published nineteen years, and during all this time it has been the firm and steady advocate of the Inventor, Mechanic, Manufacturer, and Farmer, and the faithful chronicler of the progress of **Art, Science and Industry.**

The SCIENTIFIC AMERICAN is the largest, the only reliable, and most widely circulated journal of the kind now published in the United States. It has witnessed the growth of nearly all the great inventions and discoveries of the day, most of which have been illustrated and described in its columns. It also contains a Weekly Official List of all the Patent Claims, a feature of great value to all Inventors and Patentees.

In the **Mechanical Department,** a full account of all improvements in Machinery will be given. Also practical articles upon the various Tools used in workshops and manufactories.

Steam and Mechanical Engineering will continue to receive careful attention, and all experiments and practical results attained will be fully recorded.

Woollen, Cotton and other Manufacturing Interests will have special attention. Also, Firearms, War Implements, Ordnance, War Vessels, Railway Machinery, Mechanics' Tools, Electric, Chemical and Mathematical Apparatus, Wood and Lumber Machines, Hydraulics, Pumps, Water-wheels, etc.; Household and FARM IMPLEMENTS—this latter department being very full and of great value to Farmers and Gardeners; Articles embracing every department of Popular Science, which everybody can understand.

Patent Law Decisions and Discussions will, as heretofore, form a prominent feature. Owing to the very large experience of the publishers, Messrs. MUNN & Co., as Solicitors of Patents, this department of the paper will possess great interest to Patentees and inventors.

The year's numbers contain several hundred superb engravings; also reliable practical recipes, useful in every shop and household. Two volumes each year, 416 pages—total, 832 pages.

Terms:—$3 per year; $1 50 for six months
Specimen Copies sent FREE.

PRIVATE MEDICAL INSTITUTE
Established by
DR. J. C. YOUNG, IN 1850,
For the Cure of Private Diseases of whatever naure
AND ALL FEMALE COMPLAINTS.
CONSULTING OFFICE,
540 WASHINGTON STREET,
SAN FRANCISCO, : : : : : CALIFORNIA
NO CURE, NO PAY.

Consultation by letter or otherwise, FREE. For direction of letters, see below.

THIS CELEBRATED INSTITUTE has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength and vigor from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold ever over the one afflicted, the sword of destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, *recognized as the most fatal medical enemy to man,* combining with the Venerial, doubles its dangers. Those who have been treated with that pernicious *mineral poison* are not cured: the disease has only assumed a new form.

Do not be satisfied with partial cures that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the efforts of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all diseases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT

Cures are Always Guaranteed,

In syphilis and its adjuncts; Gonnorhœa and its accompanying diseases; and all disorders of the Bladder, Kidneys and prostrate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient Consumption, and all diseases of the urinary organs, in either sex, cure always warranted, OR NO PAY REQUIRED at the PRIVATE

MEDICAL INSTITUTE,
No 540 Washington street, San Francisco, Cal.

SEMINAL WEAKNESS OR SPERMATORRŒA.

The young man who experiences that growing weakness in his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion, unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lacivious dreams accompanied by growing deafness, loss of muscular power, and numerous other symptoms of disorganization, the positive traces of that most terrible and destructive of all diseases, Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence toward a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principal of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim of his evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult, then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, *without hindrance from business, change of diet, or fear of exposure.*

Do not forget the address. See below.

IMPORTANT TO FEMALES.

When a female is in trouble or afflicted with disease, and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor, understanding how imperatively necessary these requirements are, feels called upon to interpose, and by the attention of the afflicted to the fact that he has been a *Professor of Obstetrics and Female Diseases* for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who can feel and sympathize with and befriend them in trouble—one in whose secrecy and the utmost confidence can be placed. *Consultation, by letter or otherwise, Free.* See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

Whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once refreshed, revived and built up. Well may this celebrated medicine be called the

MEDICAL WONDER.

The stooping, trembling victim of depression and debility becomes a new man; he stands erect, he moves with a firm step; his mind, which was previously sunk in gloom of almost idiotic apathy, becomes bright and active; a life goes forth regenerated, conscious of new vigor. The medicine reaches the CONSTITUTION itself, and restores it to its normal condition.

Irritation of the neck of the Bladder, Inflammation of the Kidneys, and Catarrh of the Bladder, Strangury or Burning, or Painful Urinating, Calculus, Gravel, Brick-dust Deposit, and Mucous or Milky Discharges after Urinating.

For these diseases it is truly a sovereign remedy, and to much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms. TRY IT in these cases, and you will ever give your praise to

Prices from $60 Upwards

Over 50,000 in Use!

WE beg to assure the public that the well-known reputation of these Machines for RELIABILITY will be fully sustained, and in our rapidly increasing business the same care will be faithfully exercised in every department of our manufacture. Every Machine sold by us *IS WARRANTED IN EVERY RESPECT.*

The public attention is respectfully requested to the following

Card from the Grover & Baker S. M. Company.

The public, in their eagerness to supply themselves with Sewing Machines making the GROVER & BAKER stitch must not forget to purchase them of the parties who alone are authorized to sell them. All machines sewing from the spools and in which one needle only penetrates the cloth, and having a feed which allows the material to be turned at will are infringements

GROVER & BAKER, S. M. CO.

A Card from Elias Howe, Jr.

All persons are cautioned not to make, deal in, or use, any Sewing Machines which sew from two spools and make the stitch known as the GROVER & BAKER stitch, unless the same are purchased from the *GROVER & BAKER SEWING COMPANY,* or their Agents, or Licenses, and stamped under my patent of September, 10, 11.

Said Company and their Licenses, alone, are legally authorized under their own patents, and my said patent, during the extended term thereof, to make and sell this kind of Sewing Machines, and all others are piracies upon my said patent, and will be dealt with accordingly wherever found.

PUTNAM MANUFACTURING CO.,
No. 13 Platt str., New York, Cleveland, Ohio, and Birmingham, Vt.
S. C. NORTHROP, Agent.

WHAT EVERYBODY KNOWS:

That Iron well galvanized will not rust; that a simple machine is better than a complicated one; that a wringer should be self adjusting and efficient; that thumb-screws and fastenings cause delay and trouble to regulate and keep in order; that wood soaked in hot water will swell, shrink and split; that wood bearings for a shaft to run in will wear out; that the Putnam Wringer, with or without cog-wheels, will not tear the clothes; that cog-wheel regulators are not essential, that the Putnam Wringer has ALL the advantages, and not one of the disadvantages above named; that all who have tested it, pronounce it the best Wringer ever made; that it will wring a Thread or a Bed Quilt without alteration.

We might fill the paper with testimonials, but only insert a few to convince the skeptical, if such there be; and we say to all, THAT Putnam's Wringer. Test it thoroughly with ANY and ALL others, and if not entirely satisfactory, return it.

Putnam Manufacturing Co.—Gentlemen:—I know from practical experience that iron well galvanized with zinc will not oxidize or rust one particle. The Putnam Wringer is as near perfect as possible, and I can cheerfully recommend it to be the best in use.

Respectfully yours, JNO. W. WHEELER,
Cleveland, Ohio.

Many years' experience in the galvanizing business enable me to indorse the above statement in all particulars. JNO. C. LEFFERTS,
New York, Jan. 1864. No. 100 Beekman str.

We have tested Putnam's Wringer by practical working and know that it will do. It is cheap; it is simple; it requires no room, whether at work or at rest; a child can operate it; it does its duty thoroughly; it saves time and its saves wear and tear. We earnestly advise all who have *much* washing to do, with all intelligent persons who have *any*, to buy this Wringer. It will pay for itself in a year at most.
